

ab 9. (amended) The combination set forth in claim 7 wherein said shelf [has an area which] is outwardly adjustable.

a4 14. (amended) In combination, a 2-wheel cart, said cart having a tubular frame which is vertically adjustable, and a lower shelf portion attached to said frame which is selectably foldable from a vertical stored position to a horizontal load supporting position, and a carrier detachably mounted on an upper portion of said cart for transporting a bag or sack, said carrier having a pair of elongated jaws, each of said jaws having a gripping surface for clamping [retaining] said jaws to and releasing said jaws from an upper portion of a bag or sack, a means for said clamping and releasing said [carrier to an] jaws from said upper portion of said bag or sack, and a handle attached to [one of said jaws] said carrier.

sub b3 20. (new) The combination set forth in claim 5 wherein at least one of said jaws has a gripping surface for retaining said upper portion of said bag or sack.

ab 21. (new) The combination set forth in claim 5 wherein said gripping surface of said jaw is comprised of a plurality of small outward extending portions for retaining said bag or sack.

22. (new) The combination set forth in claim 5 further comprising a thin metal strip attached to at least one of said jaws, said metal strip having a plurality of outward

extending tabs for forming a gripping surface; a means for clamping said jaws to and releasing said jaws from a bag or sack; and a handle attached to said carrier.

23. (new) The combination as set forth in claim 22 wherein said outward extending tabs are triangular.

*sub B4* 24. (new) In combination, a cart having at least one pair of wheels for transporting said cart and a carrier mounted on said cart for supporting a bag or a sack on said cart, said carrier having a pair of jaws for clamping said upper portion of said bag or sack to said carrier; and a means for said clamping and said releasing of said jaws from said upper portion of said bag or sack.

25. (new) The combination set forth in claim 24 wherein said carrier is detachably mounted on said cart.

*sub B5* 26. (new) The combination set forth in claim 24 wherein at least each of said jaws has a plurality of outward extending tabs for gripping said upper portion of said bag or sack.

27. (new) The combination set forth in claim 24 further comprising a handle attached to said carrier.
